SWIFT MARINE TECH SERVICES PTE LTD is proud to introduce ourselves as the authorized channel partner of Honeywell Process Solutions, specializing in Portable & Fixed Gauging equipment (Honeywell ENRAF TANKSYSTEM) for the APAC , West Africa regions. Our strong presence in these regions ensures 24/7 availability of UTI meter components, Full Units and service engineers, making us a reliable partner for marine and industrial automation needs.

As No. 1 HPS Channel Partner, the largest stockiest, we offer a wide range of Honeywell Portable & Fixed Gauging equipment, ensuring quick availability and support for all your operational needs.

Advantages of Honeywell UTImeter Brand

Honeywell UTI	OTHER BRANDS
Honeywell Gtex / Rtex Models are the world's lightest UTImeters , weighing max 5 Kgs which is easy to handle on board during cargo operations	Other brands weight range 13.5 to 15 kgs which makes difficulty to Crew operating the UTImeter and indirectly causes damages.
No need of annual calibration, Onboard vessel staff can replace spares easily with pre-calibrated Sensors of TS. No Soldering Works required for Spares replacement.	Spares replacement need special technical supports as UTI require Calibration Service after every spares part replacement. Also replacement works needs Soldering Works
Repeatability of different Cargo operations are highly accurate	Repeatability of sensor reading will not be accurate.
Honeywell Chem IIC designed to Phosphoric Acid and Harsh acid cargos. Also have Viscous Categories.	Other brand do not have any specific UTI for defined cargo
Honeywell UTI warranty 3 years for new complete set and Warranty Claim Rates are less than 1%	Warranty 1 year and Claim rates are abnormally high

Honeywell

PROCESS SOLUTIONS

Migration Storage Tube Types

Honeywell manufactures fittings that perfectly match existing cargo tank valves if fitted with MMC, Tanktech, Marsen and Reference Height Measurements as required for Cargo Calculations during Loading or Discharge operations. TS Storage Tube / Adaptor suits all requirements of vessel fittings for migration of UTImeters to Honeywell TS Brands.

Benefits of Honeywell Brand

The Honeywell Brand is One-Time investment for ship managers and recurring maintenance expenses are reduced annually. All Spare Parts List Pricing is cheaper comparing other brands. All Safety standards are complied in accordance with Marine / Industry regulations.
